Chapter 139, SEWERS
Article III, Regulation of Wastewater Discharges
§ 139-5. Permits.

All building sewer installation work shall be performed by drain layers licensed by the Town. Applicants for permits must be drain layers licensed in the Town. All drain layers shall obtain a license from the DPW Director prior to performing any work in the Town. All licenses shall be issued for a one-year period, with renewal required on September 1 of each year. In applying for a license, the drain layer shall provide all information required by the Town, including a statement that the licensee will supervise and be responsible for all work performed under the license. The licensee shall file with the Town Treasurer a certificate of insurance in the sums of \$100,000/\$300,000 to cover public liability; a certificate of insurance in the sum of \$50,000 covering public damage including XCU coverage for explosion, collapse and underground damage; and a performance bond in the sum of \$5,000. In addition, a certificate of insurance covering worker's compensation shall be filed, all of which shall remain in full force and effect for a period of at least one year from the date of approval. No insurance policy shall be cancelled without 30 days' prior written notice by registered mail to the DPW Director. Said insurance shall insure the Town, District and the drain layer and shall indemnify the Town and the District against any and all claims, liability or action for damages incurred in or in any way connected with the performance of the work by a drain layer and for or by reason of any acts of omission of said drain layer in the performance of his work.

Chapter 179, WATER
Article VIII, Water Main and Service Work
§ 179-14. License Required.

All water main and water service work shall be performed by drain layers licensed by the Town as provided in § 139-5

This application must be filled out legibly in ink or typewritten and accompanied by a check in the amount of \$35.00 made payable to the "Town of Franklin".
